Man, 31, Killed in Traffic Crash

Victim is R. D. Carter,
Collinsville; 13 Hurt
In 30 Traffic Mishaps

A Collinsville man was killed in a highway accident and 13 other persons were injured in 30 traffic mishaps occurred in the Quad-City area during the weekend.

Roger D. Carter, 31, Collinsville, was killed at 1:25 a.m. Saturday when the car he was driving went off Interstate 270 and crashed into the rear of a tractor-trailer about one mile east of the Chain of Rocks bridge, near Mitchell.

Carter was pronounced dead upon arrival at St. Elizabeth Hospital here immediately after the crash.

State police said the driver of the tractor-trailer truck, Emmerson C. White, 54, of Sulphur Springs, Mo., was uninjured. Carter was alone in his 1965 model auto when the accident occurred.

Carter lived in Bluff Mobile Homes in Collinsville and was employed as a caterer for Ceram Sales Co. He was born in Bond county and had lived in Collinsville 11 years.

He is survived by his wife, Mrs. Mary Carter; four brothers, Robert and David Carter of Collinsville, John of Trenton, Ill., and Vallee of Pocahontas, Ill.; two half-brothers, Leonard and Calvin Morrow of Collinsville; his father, Vallee Carter of Pocahontas, and his mother, Mrs. Eugenia Morrow of Collinsville.

He also leaves seven sisters, Mrs. Joyce Merritt and Miss Virginia Carter of Collinsville, Mrs. Dolores Kommerichsen and Miss Dianna Carter of Pocahontas, Mrs. Linda Merritt of Mulberry Grove, Sept. 13, and Dolores of Sorento and Mrs. Brenda Harder of California; and his grandparents, Mr. and Mrs. William Worstell of Collinsville.

Funeral services are given in today's obituary column.

William Spencer, 68, of 101 Weaver street, Venice, escaped with slight injuries and his brother was demolished at 12:30 p.m. Friday when it was struck by a car which passed a stop sign on Ninth street, St. Louis. He was released from St. Elizabeth Hospital after being treated for a headache and undergoing head and back x-rays.

William Garcia, 22, St. Louis, was treated at St. Elizabeth Hospital for abrasions of the forehead and right lower leg after his northbound auto jumped the curb on Main street, just east of the McKinley Bridge toll booth in Venice and struck a telephone pole at 7:20 a.m. Saturday. He was released (Continued on page 5, col. 2).

All Have Duty to Uphold Law, Judge Tells Demo Rally

All men must realize that the enjoyment of "the freedoms we cherish" imposes upon us the duty and obligation to uphold the law," Appellate Court Judge Joseph Goldenhersh of East St. Louis told a public meeting sponsored at Marion by the Democratic Central Committee of Jackson and Williamson counties.

Those who violate the laws enacted by duly elected representatives in Congress and in the Illinois General Assembly must be made to know that justice is swift, and punishment for the guilty certain," he said.

The courts can best perform their functions and judges their duties, when those charged with criminal offenses are speedily apprehended, and promptly brought to trial," the judge declared. "Justice is best served when the guilty are convicted and the innocent absolved without undue delay," Judge Goldenhersh added.

"In my years on the Appellate Court my colleagues and I who serve on the Appellate Court in the Fifth Judicial District have followed the practice of speedy and expeditious processing of criminal appeals."

Quick Decisions

"As a result, in many cases in which I wrote the opinion of the court, criminal appeals were decided within 90 days of the filing of the briefs," he said.

Judge Goldenhersh, who practiced law for 29 years, has served on the Appellate Court at Mount Vernon since 1964. He is a frequent lecturer on the Continuing Legal Education Program conducted by the Illinois State Bar Association for practicing lawyers and has spoken before national and state meetings of appellate and trial judges.

He is the Democratic candidate for Judge of the Supreme Court of Illinois to be elected in the Fifth Judicial District on November 3.

He also leaves seven sisters, Mrs. Joyce Merritt and Miss Virginia Carter of Collinsville, Mrs. Dolores Kommerichsen and Miss Dianna Carter of Pocahontas, Mrs. Linda Merritt of Mulberry Grove, Sept. 13, and Dolores of Sorento and Mrs. Brenda Harder of California; and his grandparents, Mr. and Mrs. William Worstell of Collinsville.

STAFF SGT. LYNN MITKOS, wounded five times in combat since return to Vietnam for the 4th Vietnam serviceman barked leave at home.

STAFF SGT. LYNN MITKOS, wounded five times in combat since return to Vietnam for the 4th Vietnam serviceman barked leave at home.

Sgt. Mitkos Volunteers For 4th Vietnam Tour

A highly-decorated combat veteran from Granite City will leave shortly for his fourth year of service in the Republic of Vietnam, military authorities at Fort Leonard Wood, Mo., informed the Press-Record this week.

The serviceman is Staff Sgt. Lynn Mitkos, 23, of 2824 Forest avenue, St. Louis. He is the son of L. Macke of Belleville and a son of Mr. and Mrs. Leslie J. Mitkos of 2824 Forest avenue, St. Louis.

Awarded several medals for gallantry in action during his previous Vietnam duty tours, the Granite City soldier also holds five Purple Heart Medals earned on the same overseas assignments.

Fort Leonard Wood authorities said the serviceman has distinguished himself by numerous valorous actions. He has been awarded five Purple Heart Medals, a Bronze Star, the Army Commendation Medal with "V" Device (valor); Vietnamese Service Medal, Third Award; Good Conduct Medal, Second Award; and the Soldier's Medal.

Wounded by Shrapnel

S/Sgt. Mitkos arrived in Vietnam with the 101st Airborne Brigade in 1965. He remained there 12 months and sustained shrapnel wounds in combat against Viet Cong forces.

He returned to the U. S. in 1966 and was assigned to Alaska with the Ninth Infantry Brigade at Fort Wainwright. An expert in guerrilla and counter-guerrilla warfare, S/Sgt. Mitkos instructed classes in both tactics and tactics in the field at Fort Wainwright.

It was while serving in Alaska that Mitkos volunteered for his second tour of Vietnam duty, which began Oct. 14, 1967.

Remained on Line

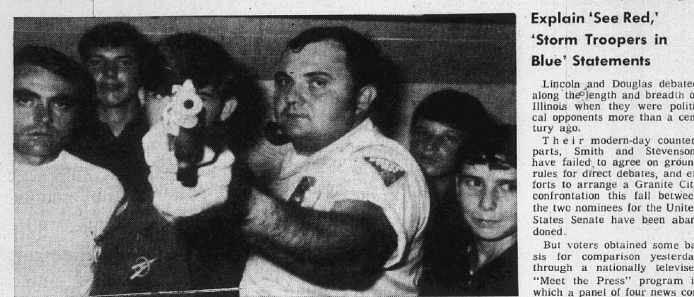

S/Sgt. Mitkos has been wounded repeatedly since Dec. 1, 1967, twice receiving treatment at Army field hospitals and volunteering to remain on the front line.

He elected to remain with the Ninth Infantry Division in Vietnam until August 1969 when he returned to the States after 22 months overseas.

From last October until the present time, S/Sgt. Mitkos has served as a platoon sergeant in the 3rd Battalion, 9th Infantry, 3rd Brigade, 25th Infantry Division, 25th Infantry Brigade at Fort Leonard Wood.

Currently on leave at home, the serviceman will report Oct. 12 at the U. S. Army Overseas Replacement Station at Oakland, Calif., for embarkation to Vietnam.

Levee Trustees to Go On Trial Today; Waive Jury

Four trustees of the East Side Levee and Sanitary district were to go on trial in the St. Clair circuit court at Belleville this afternoon on charges of misconduct in office.

The trial was scheduled to get underway after Circuit Judge Alvin Maeyes denied a motion for continuance filed by defense attorneys on the basis of newspaper stories published during the past week in reference to the case.

Defense counsel waived trial by jury and agreed to trial before Judge Maeyes.

The trustees are Morris Campbell, George Duff and Lawrence Tolar, all of East St. Louis, and William "Mike" Ebersold of Venice. Campbell is board president.

All were indicted last March in eight-count indictments charging misconduct in the handling of contracts for cleaning and repairs of concrete tunnels under the riverfront levee, and on charges of paying more than \$500 in legal fees in 1969.

In ruling last week on motions to dismiss the indictments, Judge Maeyes held three of the counts were defective, but allowed five others to stand.

Two counts that charged the levee district trustees with failure to require performance bonds in the letting of contracts for cleaning two tunnels under the riverfront levee, and one count charging the trustees illegally hired more than one attorney during 1969, were held defective by Judge Maeyes.

The court sustained, however, two counts that alleged the trustees failed to take competitive bids for the river tunnel repairs and three counts charging payment of more than the maximum \$300 permitted by statute to three lawyers in 1969.

Constitute Special Legislation

In seeking dismissal of the charges, John J. Hoban, a level district attorney and defense counsel for the trustees, contended that statutes limiting payments to \$500 annually to lawyers constituted special legislation and were in violation of the state constitution.

Liquor, Cigarets, Boat Taken in 24 Area Crime Cases

Twenty-four cases of theft and burglary were reported to Quad-City and Madison county authorities during the weekend. Eleven of the cases involved autos, two business establishments were entered and lost, and included a boat and motor.

A 15-foot boat and 70-horsepower motor, both mounted on a trailer, were stolen from the rear yard at the home of Leo Pyles, 1544 Second street, Madison, police reported at 9:10 a.m. Saturday. Pyles said the boat was taken between midnight Friday and 9 a.m. Saturday. The boat, motor and trailer were valued at about \$1400.

Cigarettes valued at \$1200 were stolen from Gossie's Market, 1520 Fifth street, Madison, police reported to Madison police at 10:05 a.m. Thursday. Taken were 12 cases of name-brand cigarettes valued at \$100 per case.

Burglars broke a front window out of the Venice Liquor Store, 1544 Broadway, Venice, and stole 24 half-pints of whiskey. Venice police reported at 1:30 p.m. this Thursday. Police in the patrol discovered the broken window and found a six-inch glass tile inside the building. Officers said it apparently had been thrown through the window.

Joseph Cohan, 2045 Rhodes street, reported to Madison police Saturday morning that his car was taken from the rear yard of his home during the night, driven about 100 miles, and then returned to his back yard. A fender was damaged on the car, he said.

\$24 Million Allocated County School Systems

A total of \$24,294,661 was distributed by the office of William Trimpie, Madison county superintendent of schools, from state and federal funds to county public and private school systems in the 1969-70 school year.

The distribution included \$5,773,727 to the Granite City school district, \$1,351,070 to the Madison school district and \$371,385 to the Venice school district.

Parochial and private schools in the county received \$42,885. The money was allocated to 17 educational and school lunch programs.

Food Costs Drop, Pay Boosts May Cause Reversal

The National Association of Food Chains is cautioning consumers against expecting much, if any, impact on food store prices from the declines in wholesale prices reported by the Department of Labor.

The government reported that the Wholesale Price Index for August showed a 0.5% decline from the record level of July, the first such decline in two years.

AFC President Clarence G. Adams said the decline is "good news for consumers since it appears to indicate that the effects of inflation on prices may be easing."

But, he said, "as far as retail food prices are concerned, consumers must not overlook a number of cautions, some of which were mentioned by government spokesmen at the time of the release of the index."

Adams said the most important of these cautions is that the greatest decline occurred in prices for farm products while the index for processed foods declined at a far smaller rate.

"Since the bulk of the consumer's food dollar goes for processed foods and not for farm products," he said, "this part of the Wholesale Price Index is not a good barometer with which to measure future consumer prices, especially over the short run."

Additionally, the Labor Department pointed out that the declines in the processed foods part of the index occurred mostly in meats and poultry, the eventual prices of which will be greatly affected should the reaction of the cost of this year's crop be as dramatically reduced yield of this basic animal feed.

At the same time, food chain union contract settlements this year are resulting in wage increases that are mitigated by increased productivity, they expect upward pressure on retail food prices regardless of the relative cost of merchandise," Adams said.

All in all, we see the Wholesale Price Index decline as a good sign and one that we hope signals a stabilizing economy.

But, consumers would be wrong to expect to see any real effects of this on their supermarket shelves, at least in the (Continued on page 4, col. 7)

Salary Raise Before Council

Ordinance Placed on
First Reading to
Settle Strike Issue

An ordinance granting a \$50 monthly pay raise to 14 city hall employees who had not been granted raises earlier this year was placed on first reading in a special meeting of the city council Tuesday night in an effort to resolve a dispute that resulted in a two-day strike of these employees last week.

A plan to vote final passage of the bill to definitely end the wage controversy was dropped when only eight of the council's 15 members appeared for the special session. A move to suspend the rules and give final passage to any measure requires a minimum of 11 favorable votes.

The special meeting was called by Mayor Donald Partney after the city council failed to settle the issue in regular council session last Tuesday, resulting in a continuation of the walkout through Wednesday. The strike which began at 4:30 p.m. Sept. 4, caused the city clerk's office and the treasurer's office to close Tuesday and Wednesday.

Failure to settle the wage dispute Tuesday night grew out of demands by the union employees, that all 14 of the workers be paid holiday pay for Labor Day, Monday, Sept. 7.

Ordinance Questioned

Council members contended the employees were on strike at the time of the holiday and that there is no record a city ordinance providing that holiday pay be paid only to employees who work the day before and after a holiday.

The striking workers also demanded pay for the two days they were on strike, but in discussion Tuesday night agreed to waive this demand after council members conceded the request for a salary raise totaling \$50 per month.

The ordinance placed on first (Continued on page 4, col. 5)

Hearings on Campus Unrest Open Thursday

A special Illinois legislative commission, appointed to investigate disorders last spring on the Carbondale campus of Southern Illinois University, has scheduled its first formal hearings Thursday and Friday in Springfield.

State Sen. G. William Horsley (R-Springfield), who sponsored the resolution calling for formation of the special commission, has indicated that an array of witnesses will appear at the two days of hearings. The sessions will be conducted in the old Supreme Court Chambers in the State Capitol.

Details concerning the commission's task have been discussed with Gov. Richard B. Ogilvie, according to Sen. Horsley, who will head the commission. The governor has indicated that colleges and universities under state jurisdiction will remain open.

Ogilvie also has discussed the problem of student disorders with education officials and has said that if further disruptions occur "a hard line will have to be taken." The state executive voiced similar sentiments last year when he attended a meeting of the SIU Board of Trustees and representatives of student groups at the SIU-SU campus.

Among those expected to testify before the commission are U. S. Sen. Ralph Tyler Smith (R-Alton); State School Supt. Ray Page, who is running for re-election, and his opponent, Dr. Michael Bakalis of DeKalb, an educator from Northern Illinois University.

Smith's opponent in the November election, State Treasurer Adlai E. Stevenson III of Chicago, has not yet indicated if he plans to testify.

Extension of Steel Import Restraints Called Essential

Prompt extension, expansion and strengthening of the current Voluntary Limitation Arrangement, which limits steel imports to the United States from Japanese and European Common Market producers, are essential to the steel industry.

By crippling import surges—with permanent damage to the industry—the steel industry is to be averted. That's the conclusion expressed in a new American Iron and Steel Institute study of the steel import problem.

The analysis, "Steel Imports—A National Concern," reviews the origins and effects of the decade-long import crisis facing America's steelmaking communities.

Included are special chapters in the effectiveness of the voluntary restraint program, now scheduled to expire at the end of 1971, the particular problem facing specialty steel producers, and a study of Japan's international steel trade policy.

A nationwide boom in steel demand, intensified in part by labor troubles abroad, contributed to the drop in 1969 American steel imports. For this reason, says the Institute, it may be impossible to determine just how much the voluntary restraints actually did pare potential imports.

Future Rise Seen
"It seems likely, however," the study warns, "that imports will tend to rise again in the future as the world steel boom subsides and the large additions of capacity it is generating in many parts of the world come into operation."

If past trends resume, the Institute continues, "imports will be taking not only all the growth in demand, but, in many product lines, will be eating into the present level of domestic supply as well."

Arson Suspected in Madison, Venice Fires

Arson is suspected in two fires that occurred Thursday night in Madison and Venice, police reported today.

Police found flames wedged under the floor at Alan's Auction Co., 612 State street, Madison, after a fire at 8:22 p.m. which caused only minor damage. Fires also were found on the roof of a vacant building owned by Air Products and Chemical, Inc., Short road and Bissell, Venice, after a fire at 8:15 p.m.

Venice firemen fought the latter blaze for one hour and fifteen minutes. A fire was reported at 9:05 a.m. Friday at Lee's Barbecue, Second street and Washington avenue, Madison, which caused only minor damage. A vacant store was destroyed in a fire at 7:15 Iowa street, Madison, at 7:45 p.m. Thursday. Rubbish stored in the shed was the apparent cause of the fire, firemen said.

Rules Too Vague
According to the Institute, the provisions relating to maintaining product mix and geographic distribution are too vague. At the least, says the study, the voluntary quotas should have a

No important product line has been immune from import pressures, according to the report. The greatest geographic area of import growth has been the Midwest, the largest domestic market.

Under the voluntary limitation agreement adopted in 1968, which was to be effective for three years, the European Economic Community (West Germany, France, Italy, Belgium, Luxembourg and the Netherlands) and Japan would hold their steel exports to the United States to 5.75 million tons each in 1969. It was determined that their imports into the U. S. would grow 5% each year in 1970 and 1971.

Including other exporters to the American market, total steel shipments to the U. S. would be held to 14 million tons in 1969, with an annual 5% increase in each of the next two years.

Agreement Violated
AISI says there are indications that the partners in the voluntary arrangement may not have held to their own ground, rules during the first year of the pact's existence.

For example, in slightly different language, both the Japanese and the Europeans promise to try not to change greatly either the product mix or the geographic distribution of their import patterns.

Total 1969 steel imports were just a shade over the arrangement's limit of 14 million tons. However, the Institute study points out, imports of specialty steels exceeded their theoretical ceilings under the arrangement by 10 to 80%.

The Institute study contains these observations about the voluntary agreement: Nations supplying about 20% of total American steel imports are not parties to the current arrangement. AISI suggests that, in the future, these nations might try to take advantage of the situation by increasing their penetration of the American market—particularly in the hard-pressed specialty steel area.

The current voluntary arrangement permits a 5% annual rate in steel imports. This, AISI notes, is more than double the average annual growth rate of domestic U. S. steel demand since world war II.

100,000 Jobs Lost
Last year's import total of 14 million tons of steel represented over 100,000 lost potential job opportunities.

The past decade's import surge is attributable to large steel making over-capacity abroad, foreign wage rates much lower than exist in the U. S., and foreign government policies aimed at protecting their steel industries and expanding steel imports.

Steel technology is now so internationalized that all steel-able steel industry.

makers in the world can benefit from new processes within a few months of their development. The only variable is per unit labor cost.

The actual wage gap between American and foreign producers is widening—not shrinking. To match Japan's per unit labor cost, for instance, the U. S. would have to chop its man-hours per ton of steel by 70%—an impossible task under present or currently developing technology, no matter how much money is invested in new equipment.

If Japan's steel industry—favored by special government investment policies—fulfills current expansion plans, within five years it will supply between 20% and 40% of all steel sold in international markets outside the EEC. At that time, Japan might be trying to sell as much as 20 million tons of steel a year in the U. S.

No first class industrial power can survive—either economically or militarily—without a viable steel industry.

August Rainfall Second Largest in Year So Far

Rainfall in August totaled 5.9 inches, only 15 inch less than the 5.44-inch precipitation logged in April, so far the year's heaviest rainfall.

Last month's rain, recorded on 11 days including seven consecutive dates, at the rain gauge at the Chain of Rocks canal locks, helped reduce the year's shortage, but still leaves a total of 2.8 inches below the normal 21.27 inches of rainfall for the eight-month period.

Since January, a total of 21.49 inches of rainfall has been recorded in the Quad-Cities, compared to 9.13 inches in the same period last year. Rainfall in August 1969 measured only 12 inch.

Last month, rain was recorded on Aug. 5 when 45 inch fell; Aug. 6, 15 inches; Aug. 7, 20 inch; Aug. 8, 25 inch; Aug. 9, 167 inch; Aug. 10, 1.04 inch; Aug. 11, .01 inch; Aug. 17, .33 inch; Aug. 18, .17 inch; Aug. 20, .07 inch; Aug. 21, .25 inch.

This month, traces were recorded on Sept. 3 and 4, with .02 inch on Sept. 6 and .7 inch on Sept. 8.

A breakdown of the area's precipitation by month, with the monthly normal in parentheses, follows:

January—20 inch (1.98 inch), February—30 inch (2.04), March—1.65 inch (2.34), April—5.44 inches (3.71), May—3.90 inches (3.73), June—4.01 inches (4.27), July—30 inch (3.20) and August—5.29 inches (3.02).

ABOUT THIS QUESTION:

"Building costs rose 15% during the last three years, and are expected to go up a full 10% during 1970 alone. Can the Lueders Agency suggest some way that my property insurance can be periodically increased so that I can be insured to full replacement value?"

Hit-and-Run Accident
The auto of Vera Arbogast, 2705 Center street, parked in front of home, was struck in the right rear by a hit-and-run driver at 9:05 a.m. Friday.

Stevenson—I was threatened with death at the age of 17. My father's memorial institution was torn apart. I have opposed violence whether by Black Panthers, students or police.

Applicants Most Polite
Disorder Main Issue
"There is no question that civil disorder and domestic violence are the main issues. Most people hope there will not be a resumption of disorder on college campuses. They want to be able to walk the streets at night without fear walking with them. We must find answers."

Sen. Smith—"When I say, 'Whenever I see Adlai, I see red,' it is a comment, not a slogan. It doesn't mean 'Communist.' I am angry about his statements like 'Chicago police are storm-troopers in blue' and 'The FBI lacks credibility.' Unilateral withdrawal from Vietnam."

Sen. Smith—"My campaign is going extremely well. Thirteen other U. S. senators are coming to Illinois Monday to tell the people why they think it is essential that I remain in the Senate."

Support by Daley
Stevenson—"I have the wholehearted support of all the Democratic leaders in Illinois. Very few people are fooled by the tactics of my opponent. Mayor Daley of Chicago is chairman of my fund-raising dinner next week."

TALKS BY NATIONAL LEADERS
Sen. Smith—"Vice-President Agnew spoke of 'radical-liberals' and 'philosophies different.' I think it is good to demonstrate that there are differences in philosophy between candidates. This is not done to polarize society, which is already deeply polarized. The intention is to delineate the differences."

Stevenson—"Democratic Chairman Lawrence O'Brien's criticism of some Democrats? I don't have any relationship to any extremists. I don't think there are extremists in the Democratic party—not in my state, in any event."

"In the Democratic party nationally and locally, we are opening the doors to make it a more democratic party. Parties are processes more than institutions."

"PUBLIC SCHOOLS.
Stevenson—"I am for full and equal opportunity, including equal educational opportunity. Forced busing of students does not solve any problems and is counter-productive. It is not wanted by the sending area or the receiving area."

"We need additional attention to the quality of schools. We need to get at the heart of the inequity and I think it is economic."

"We need to provide good schools. There are terrible schools in my part of our state, Chicago, and in East St. Louis. COLLEGE CAMPUSES:
Sen. Smith—"I have campaigned on college campuses. There is no question but that most of the students are going to college to learn."

"Only a small percentage are going there to burn, not learn. The Administration favors getting them off the campus so that the other 90% can get their education."

"It is not to blame. When the President referred to some student radicals as 'bums,' he was talking about those who are there to burn buildings or cause trouble. The Vice-President's 'rhetoric' has been blamed, but a great majority of the young people agree with what he has said."

short-term regime with deteriorating economic conditions.

"We are heading toward either a precipitous pullout after a terrible investment of money and the lives of young Americans, or to a re-escalation."

"I have urged a negotiated settlement. The Saigon regime is an obstacle to a political settlement with the Hanoi regime. We should proceed with an orderly withdrawal and seek free elections and a return of our prisoners from North Vietnam."

South Vietnam "Corruption"
Stevenson—"It is unrealistic to think that the Saigon regime can win the war alone when it could not win with the help of 500,000 well-trained American troops. It is a corrupt and avaricious regime, for the reasons I have mentioned, plus the fact that there is always a lag of a number of weeks between wholesale prices and retail prices."

Sept. 25 Deadline for Red Cross Ditty Bags
Local groups and individuals willing to make Christmas ditty bags for servicemen in Vietnam, prior to the Sept. 25 deadline, are urged to contact the Tri-City American Red Cross office at 423-7184, Mrs. Rose Overbeck, chapter executive director, said today.

Several organizations are completing ditty bags for shipment by the Red Cross to Vietnam, but additional help is needed to sew and fill a sufficient number of the small gift sacks, Mrs. Overbeck said. The local area's commitment of bags will be wrapped and sealed Sept. 25, she added.

Full instruction on how to sew the ditty bags may be obtained through the Tri-City Red Cross office at 1411 Twenty-first street, or by calling 452-7184.

Strong denim or similar smooth-textured heavy cotton fabric in Christmas red or green should be used to make the bags, which have a drawstring top. A list of items to be included in the sacks also is available at the local chapter office.

Quad-City Amvets Enroll New Members

An Amvets National Sad Sack officer and a Missouri state Amvet official were guests last week at a meeting of Quad-City Amvets Post 51, held at the post home, 5100 Lakeway drive. Three new members also were accepted into the local veterans' organization.

Introduced by Post 51 Commander William Sherman and Earl Smith, membership director, were newcomers, William Brice, James Taylor and William Donnell.

Also introduced were Mike Dougherty of Berkeley, Mo., Amvet National Sadeast, and Colin Yoho of St. Louis, senior vice-commander for the Department of Missouri.

The officials invited local Amvets to take part in a National Sad Sack Scrimmage session, set for Sunday, Oct. 4, at Amvets Post 55 in Berkeley, and attend a dance and social evening to be hosted by the same post on Saturday, Oct. 3.

Sherman announced Post 51's annual turkey shoots were scheduled to start at noon Sunday. The benefit shoots will continue each Sunday through late December.

Highlighting the meeting was presentation of a plaque awarded Post 51 as "National Amvet Post of the Year." The award recently was received by Post 51 officers, Leo Clements and Steve Conkovich, at the Amvets national convention in New York City.

MASTER OF MAGIC, David L. Norton, defies the law of gravity with his suspended animation feat. 'Norton and Nila' will appear at 2 and 8 p.m. Saturday in Granite City high school auditorium. The public benefit performances will be sponsored by Granite City Junior Service Club. 'Nila' is shown at left.

Matinee, Evening Shows

'Norton and Nila' to Perform Saturday

From the time that Roman Emperors sat bemused by sorcery performed for their enjoyment by magicians from the Tri-Cities Area United Lands, the art of magic has spanned the centuries, remaining a constant delight to young and old alike.

Quad-City's all ages may view a well-known master of conjuration when "Norton and Nila" present their magic, mirth and mysterious wizardry in two performances Saturday at Granite City high school auditorium.

The magic shows will be presented at 2 and 8 p.m. Saturday under the auspices of the Granite City Junior Service Club members provide eye examinations and glasses for needy children. The service is offered children who are referred to the club by local school nurses.

Admission Prices
Tickets for the 2 p.m. matinee are priced at \$1.50 for adults and 75 cents for children under 16 years. Admission to the evening show will cost adults, \$1.50 and children under 16, \$1 each.

Professional magician "Norton" is in everyday life David L. Norton, executive director of the Tri-Cities Area United Lands. The lovely and adept "Nila" is Norton's wife.

The couple performed on a regular professional basis prior to the arrival of a family, when the Norton's decided to settle down and secure other positions of employment.

The lure of the stage continued to entice the couple, who began presenting their wonder-making tricks at evening and weekend shows. Both have been performing magic on a community basis for over 35 years.

Dave Norton initiated his professional stage career at 16 and has performed in most states and several Canadian provinces. At the outset of his career, theatres were gradually replacing the vaudeville-magic shows, but magicians, if good, still were in demand on the Chautauqua, Red Path and Lyceum circuits and in the many Butterfield theatres in Michigan.

Played Michigan Area

A magic-oriented area proved to be the state of Michigan, where the Norton's held forth in the Detroit area and appeared at Michigan State University, the University of Michigan and the Michigan State Bankers Association convention at Mackinac Island.

One summer, Norton traveled with Al Gordon Varieties, performing his prestidigitator under canvas in communities throughout southern Michigan, northern Ohio and Indiana.

The couple has appeared on television, in night clubs, theatres, state fairs, schools, churches, hotels and at several commercial expositions, accomplishing this feat in towns and cities from New York to San Francisco and Three Rivers Falls, Minn., to Florida.

Although closely guarding the techniques of their mystifying routines, the Norton's promise a "truly bewitching" performance in their appearances here Saturday.

Highlighting the "Norton and Nila" show will be an uncanny escape from a wood cabinet and canvas-covered box, completely unbelievable and equally as unexplainable.

Miss Lisa Garcia, recently was performed before millions of mystified television viewers on the Ed Sullivan Show, it was learned.

Lauds Scott AFB Wing For Hurricane Aid

The traditional Navy "well done" has been extended by Vice Admiral Davis, Navy Surgeon General, in thanking the men of the 375th Aeromedical Airlift Wing stationed at Scott Air Force Base for their support following one of the season's most devastating hurricanes—Celia.

When Celia devastated the Gulf Coast area around Corpus Christi, Texas, in early August, the 375th was there to aid in relief and, if needed, evacuation of personnel from the area.

In a message to Colonel John W. Self, commander of the 375th, Admiral Davis stated:

"I wish to express sincere appreciation for the superb support your command provided on Aug. 4, 1970, to the Naval Hospital, Corpus Christi, following the disastrous Hurricane Celia. Your response was timely, efficient and well organized. Consideration extended to our patients was most appreciated and gratifying and reassuring."

"You may take great pride in the performance of your staff. The traditional Navy 'well done' is extended with great pleasure."

In 1969, the Wing received an Air Force Outstanding Unit Award following similar action taken by the 375th in aiding victims of Hurricane Camille.

The traditional affair, which commemorates the 160th anniversary of the Independence of Mexico, is sponsored annually by the local commission. The event is open to the public.

Highlighting the evening will be a variety show, featuring local youngsters and adults in authentic costumes performing traditional dances and legendary folk songs. Mrs. Antonia Lopez is directing this year's Fiesta program, assisted by Miss Lisa Garcia and Mrs. Barbara Valencia.

Tickets, priced at \$2.50 for adults and \$1.50 for children, may be purchased at the door, or obtained in advance from Commission members and at for \$2 each adult. A.L. "Pete" Metcalf is serving as general ticket sales chairman.

Forum Here Sunday on Trees in Urban Area

The Gardenaires Garden Club will sponsor the fourth in a series of public forums on horticultural topics on Sunday, Sept. 20, at 2 p.m. at the Wilson Park recreation center (see link).

John Habermeyer, arborist and tree consultant of Creve Coeur, Mo., Wayne Siefert, area advisor in ornamental horticulture with the University of Illinois Cooperative Extension Service, and William Breneman of the Illinois Power Co. forestry division of Decatur will discuss "Trees in the Urban Environment."

Particular attention will be given to the proper selection of tree varieties for size, quality, beauty to suit a certain location, the care necessary to maintain that tree for maxi-

mum benefits, important steps to combat insect and disease damage, and what Granite Cityans could do to support municipal tree planting.

There will be a slide presentation of the program, printed material available, and a question and answer period for problems that might be plaguing local homeowners concerning their trees.

Extremely Valuable

"In our society, where success is measured in dollars, for nations in the gross national product, and for individuals in increasing affluence, it is difficult to estimate the value of the urban tree," commented Erik Jorgensen, University of Toronto, at the recent 46th International Shade Tree Conference

held in Rochester, N. Y.

"The urban forest adds considerably to the overall well being of its human residents. It provides a natural screen against the direct rays of the sun, dust, fall, air pollution, wind and noise.

"It regulates soil and air moisture content and provides for an esthetic blending of nature with the often stark architectural structures of our factories and homes.

"It makes a setting for active as well as passive recreational activities, and can, if properly managed, provide a stabilizing factor in the environment... an environment which now is everchanging.

"Man's attachment to trees is deep-rooted, although not al-

ways appreciated by the individuals."

Tree Nursery Established

The Gardenaires Garden club is intensely concerned with the tree problems of Granite City. The members recently established the first nursery of trees for the city. Contributions by General Steel Industries, Inc., Granite City Steel Co. and Miles Laboratories, Inc., will make it possible to add more saplings to the 200 trees now in the nursery.

The club also has set up a book display on trees at its "Mini-Garden Center" at the local Public Library. Various pamphlets that are available through the University of Illinois and the U. S. Department of Agriculture are included.

20 NAMEOKI VILLAGE GRANITE CITY, ILLINOIS

WARRIOR LINE GETS READY. Offensive line on the right faces the defensive line on the left, battling each other in preparation for the 1970 season. End Chuck Krause in the left foreground squares off with Tackle Gerald Macias. The second pair of linemen consists of Tackle Tom C. Stephens at left and Guard John Tarpo. Defensive Line Coach Tom Wyrzycki (left) keeps a watchful eye on the situation. Offensive Coach Stan Wojcik, back to camera on right, receives the ball from Tackle Bruce Burnett. In the background, End Jeff Melzer and Tackle Richard Moore start to move out.

GCHS Spotlight on Power Running

Power running will mark the Granite City high school grid style season, according to Coach Wayne Williams. The Warrior mentor comments, "We'll rely on three yards and a cloud of dust and hope to keep getting a 'first and ten'."

In power running, Williams said, "When you do it this way you can't afford to make silly mistakes that cause you to lose the ball."

He went on to give as an example of the effectiveness of power running last season's game against the East St. Louis Flyers. The Warriors

trampled the Flyers 21-6 and the game was marked by short-yardage ground gains, spaced with passes.

The Warriors in that game held onto the ball for an entire quarter, gaining three or four yards at a time before scoring. The season opener will be played at 7:30 p.m. Saturday at Stephen Decatur high school in Decatur.

An 800-pound Warrior front line will be waiting for any and all who dare them. Heading up this wall of muscle and bone are Mark Mizerski, 6-2, 235, senior tackle; Chuck Krause, 6-3, 200, junior end; Erik Stubbs, 6-2, 195, senior tackle; and Tom C. Stephens, 6-11, 225, junior tackle.

Defense Impressive
The Warrior defense appears strong. In practice, Coach Williams has sent his best offensive unit against the defense without success.

In the receiving end, the Warriors are hurting a little due to the illness of Kevin Dyer, 5-2, 170, junior flanker. Dyer lettered in his sophomore year. He has a respiratory problem and is hospitalized. It is not known at this time whether he will be out of action for the season.

Even with Dyer missing, the Warriors have two capable receivers in Jeff Melzer, 6-0, 185, senior end — he lettered last year and will be playing tight end — and Bob Wiggins, 6-1, 160, junior quarterback. Wiggins also will play split end and is an experienced receiver.

Joe Wallace, 5-11, 180, junior quarterback, who lettered as a sophomore, will be doing the kicking. Wallace was the best place kicker in the Southwest Conference last season.

Passing by Harris
Keeping the enemy off balance will be Don Harris, 5-8, 145, senior quarterback, who will be passing. He is a returning letterman.

Wallace may start as middle linebacker. He has the ability to pass, receive and do just about anything well on the field.

Several good non-lettering seniors and juniors from last year's sophomore team, which lost only one game, will help make the Warriors a respectable club for the 1970 season.

Veteran Players, Coaches at MHS

"O'Fallon kill, O'Fallon kill, O'Fallon kill" is the chant heard at Madison senior high school during football practices these days.

The MHS eleven will open at O'Fallon, Ill., at 7:30 p.m. Friday.

With the return of several key players, the Trojans stand a good chance of repeating last year's undefeated record and, in the words of the team, "Kill O'Fallon," figuratively speaking.

The returning lettermen who are setting a tough pace for the other team members include Harold Campbell, 6-4, 205-pound senior guard, Edward Chandler, 5-11, 185 junior end, Phillip Davis, 5-7, 170 senior halfback, Austin Lewis, 6-1, 195 senior quarterback and John Mangoff, 6-0, 185 senior back and Conner.

Also back are Eugene Patton, 5-5 senior halfback, Courtney Prothro, 6-3, 225 senior tackle, Robert Pryor, 5-7, 170 senior halfback, Henry Rhodes, 6-3, 220 senior senior tackle, Dwayne Shaw, 5-10, 180 senior halfback, Bobby Simms, 5-8, 185 senior halfback, and Mike Stern, 5-10, 185-pound senior guard.

Coaches Experienced

Another major factor aiding the Trojans this season is the return of the three varsity coaches. Al Vander Haar is head football coach and has an impressive record at MHS of 12-2-2. This is his third year at Madison.

Emmett Timmons, the backfield coach, is in his eighth year with MHS. Charles Steptoe, the line coach, has been at Madison for seven years.

Vander Haar reports, "The three varsity coaches work extremely well together as a team. Everyone knows the game and basically we think alike as to methods and procedures. This makes the coaching staff highly effective."

Program on Teal Identification Is Set for Wednesday

A slide program on teal identification will be given Wednesday at 7:30 p.m. at the Eagles lodge in Alton. The slide will be presented by David Harper, Jerseyville, game biologist for the Illinois Department of Conservation. It will be open to all who are interested.

Because of early migration through the Mississippi flyway, Illinois is having another special teal season this fall beginning Saturday, Sept. 19, and ending Sunday, Sept. 27. Only blue-winged, green-winged and cinnamon teal may be hunted during the September season.

"It is important that hunters be able to distinguish between the teal and the woodcock population," said Harper. "Hunters will have the responsibility of distinguishing the birds."

The daily bag limit of teal is four and the possession limit after the first day is eight.

State Mat Champion Enrolls at SIU-SW

Enroll at SIU-SW

O'Brien, a 1969-70 Illinois high school wrestling champion in the 115-pound division, has enrolled at SIU-SW, Carver varsity mat coach Larry Kristoff has announced.

O'Brien, the son of Mr. and Mrs. Joel Riggins, Chicago Heights, was a member of the Bloom township high school team for three years. During that span, he posted a 63-17 record, topped off by a sensational 26-2 senior performance.

The two defeats he suffered in his final prep campaign were avenged when he defeated Jim Davis of Thornridge high in their third meeting. He beat Don Hothow of Glenbard North, 6-2, to win the Illinois state title.

In his senior year, O'Brien was named the outstanding senior athlete at Bloom high and was awarded a plaque from Alpha Kappa Psi, a national fraternity in Chicago Heights, for "being an outstanding wrestler."

O'Brien's state mat title was the first Illinois championship won by a Bloom high athlete or team in 11 years.

"HARDER, HARDER, HARDER" screams Coach Al Vander Haar (left) as Quarterback Jerry Dragich (foreground) hits a tackling dummy at the Trojan practice field. At right is MHS Backfield Coach Emmett Timmons.

379,000 Used Food Stamps During July

Nearly 379,000 persons in all 10 Illinois counties received food assistance through the U. S. Department of Agriculture's Food Stamp program during July, according to this M. Doyle, Midwest regional director of the Food and Nutrition Service.

The total included 311,640 on public aid and 67,053 other low-income persons.

During July Illinois participants received over \$9-million worth of food coupons of which more than \$4-million were bonus coupons. This was a bonus average of \$10.98 per person.

In 642 Midwest projects, over 1.6-million persons were in the program during July. Total value of coupons was around \$88-million of which 53 per cent was in bonus coupons. The regional bonus average was \$12.63 per person.

By participating in the Food Stamp Program, low-income families can buy more food by exchanging the amount of money they normally spend on food for food stamps worth more than they paid.

'Permissiveness' Boosted Crime Rate, Smith Says

U. S. Sen. Ralph Tyler Smith (R-Ill.) last week warned that as long as ultra-liberal softness toward criminals continues, crime will continue to cause a serious drain on America's money and manpower.

"For nearly a decade, the Democrats and their ultra-liberal supporters preached permissiveness in the White House, in the Congress and in the courts," said Smith. During that period, the overall crime rate soared more than 148 percent, and crimes against property more than 151 percent. Money inappropriately spent in programs in the inner city helped build syndicated crime through numbers, loan sharks and narcotics.

"Because of this sad inheritance from past administrations, not a minute goes by in this country without a violent crime being committed," the senator said. "Seven police men have been killed already in Chicago this year. Madison, Wis., Philadelphia, and Cairo, Ill., have been the scene of extreme violence against authority."

"The FBI Crime Clock states that during 1969 there was a violent crime committed every 48 seconds, a murder every 36 minutes, a forcible rape every 14 minutes, an aggravated assault every two minutes, a robbery every two minutes, a burglary every 16 seconds and an auto theft every 36 seconds."

Coddling No Solution

Smith said it doesn't take "a

degree in psychiatry to recognize that coddling criminals and offering excuses for the most heinous crimes is no way to deter others from the same destructive acts.

"The only way to stop crime in this country is to support law enforcement officers in the community, in the Congress and in the courts. We must make it perfectly clear to any criminal or potential criminal that frustration, poverty, overcrowding or discrimination does not justify taking life or destroying property. We must agree, of course, that social problems are in many cases the root of evils that foster crime."

The social scientists, psychiatrists and the psychologists must continue to investigate the relationship between crime and urban pressures to find fundamental solutions," said Smith. "But until we can get long range results by solving social problems, we must give our police the authority, the tools and the backing to deal effectively with crime in the streets, in the home and business establishment and on campus."

Rites Set for Crash Victim; Ex-Resident

Funeral services were to be held this afternoon in St. Louis for Mrs. Carrie Sue Werth, 37, former resident of Granite City who was killed in a traffic crash on Missouri State Highway 21 in southwestern St. Louis county Thursday. Burial was to be in Mount Lebanon cemetery, Bridgeton, Mo.

Mrs. Werth and two children, Candice Werth, 11, and Kenneth P. Yardley, 17, were passengers in an auto driven by Boris W. Vassel, 43, of Fenton, Mo., when it was struck by an auto driven by Oliver E. Martin Jr., 20, of Imperial, Mo.

The Missouri Highway Patrol reported the southbound Martin car apparently crossed the center line, colliding head on with the northbound car in which the Werth were riding.

Another passenger on Vassel's car was Mrs. Helen E. Walsh, 35, of St. Louis. Mrs. Walsh was admitted to St. Joseph's Hospital in Kirkwood, Mo. The others, including the two children were released following hospital treatment.

Mrs. Werth is survived by the children and her mother, Mrs. Curtis Stone of St. Louis. Her husband, the late Rowland G. Werth, died in 1965. They were residents of Granite City from 1957 until last May.

An obituary notice appears elsewhere in today's edition.
